

Bayou Mold Pros

Insurance Documentation Checklist

General recordkeeping ideas for property owners dealing with water damage or possible mold concerns.

Bayou Mold Pros is an independent referral website. We do not directly inspect, test, remediate, restore, or repair property.

Create a Record

- Photograph affected rooms, visible damage, and damaged belongings.
- Write down the date, cause, and timeline of the event as best you can.
- Keep a list of anyone you speak with about the loss, including claim numbers when assigned.

Save Supporting Information

- Keep receipts for emergency drying, temporary supplies, or mitigation steps.
- Save invoices, estimates, and provider notes you receive.
- If instructed, keep samples or damaged materials until your insurer advises otherwise.

Ask Your Insurer

- Ask whether the type of water event may fall under your policy.
- Ask whether flood coverage, mold limits, or exclusions may apply.
- Ask what deadlines or claim-documentation requirements must be followed.

Important Note

- Bayou Mold Pros and participating providers do not determine insurance coverage.
- Only the insurer can explain policy terms, exclusions, and claim decisions.
